

Bridal Falls

a unique solution to your wedding day dreams

Are you planning an outdoor wedding?

Have you decided that the typical white bridal arch and gazebo are definitely not for you?

Consider Bridal Falls, a unique innovation in outdoor event staging for those looking for something a bit nicer than "average".

Bridal Falls Features

- An elevated stage for the wedding ceremony with room enough for the entire bridal party
- Large overhead canopy to protect the bridal party from the sun or rain
- Yamaha sound system complete with an iPod dock, satellite radio and remote control capabilities
- Three waterfalls on stage with lighting and fog machines
- Extensive track lighting system with dimmers

One stage that can hold the wedding ceremony, photos, wedding party head table, DJ or band, the cake cutting, bouquet and garter throw and even the family brunch the next morning!

Specifications

- The stage is 20' wide and 13' deep.
- The legs are adjustable so the terrain does not have to be completely level.
- The stage arrives in several parts. Our professionals are on hand to assemble and dismantle for you.
